It is our duty to acknowledge that on many occasions, the Uyghur community has proudly received your support; notably your speech in Parliament House on 26th March 2018 when the community travelled to Canberra for a rally held in front of APH, your presence at the rally on the same day and also the subsequent advice, guidance to us in making our voice more vocal and vibrant, your detailed speech at House of Representatives on 17th September 2018, your motion and presentation of our petition and your advices to other Labor Members have made our community members so much privileged and delighted.

As a community carrying so much painful agony on our shoulder, we often feel desperate and eager to access help from Australian Government and Public. Hence, it is our honor to have government representatives such as you to hear our stories and bring our matters to our government from time to time.

Your speech on 26th March 2018 and on 17th September 2018 have reached to our communities in Australia and around globe and received excellent feedbacks and appraisals. We wish to say together – THANK YOU to you for your passion and dedication.

Not only at the Federal level, you and your office provided countless support to our individual community members in assisting their personal concerns and difficulties and please accept our appreciation in these avenues as well.

The Uyghur Human Rights issue has become a global concern and it is related to our national interest as a country founded on the values of democracy, freedom and liberty. Our calls and ultimate freedom of Uyghur people can be achieved with the support of international communities, countries and government people such as you.
